

Chart/TableNo 1 showing the difference between the ambient/solar/thermal temperature and lower Temperature attained by evaporating water , factoring in the ambient Temperature and Humidity.
Difference between Dry-Bulb and Wet-Bulb Temperature (C°) . —————>

Dry-Bulb Temperature (°C)	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23
